

AMENDMENTS TO THE CLAIMS

1-48. (Canceled)

49. (Previously Presented) A method of treatment, comprising:

- a) providing:
 - i) a mammal having symptoms of sepsis,
 - ii) a therapeutic preparation, comprising anti-TNF-alpha, anti-IL-6, and anti-IFN antibodies; and
- b) administering said preparation to said mammal wherein said symptoms are reduced.

50. (Previously Presented) The method of Claim 49, wherein said antibodies are polyclonal.

51. (Previously Presented) A therapeutic composition for use with a mammal having symptoms of sepsis, said therapeutic composition comprising anti-TNF-alpha, anti-IL-6, and anti-IFN antibodies.
